

PARENTHETICAL DOCUMENTATION

- ✓ Provide page numbers only for quotations.
- ✓ Place page numbers inside parentheses.
- ✓ Place parenthetical notes immediately after quotations.
- ✓ Treat parenthetical page numbers as part of sentences: they fit inside punctuation the same as words.

e.g., The author asserts that “there was no choice” (34).

e.g., The author makes this “ghastly assertion” (51), and then he moves one without clarification.

e.g., The author claims that “the president had no choice . . .” (151).

- ✓ Block quotations:

Put the parenthetical note two spaces outside the period in order to keep it outside of the quotation. (96)
